Fall 1956 & Spring 1957

Dear Rosarian:

Thank you for your communication relative to our rose bushes.

We regret that, due to circumstances beyond our control (including an acute labor shortage), it has become necessary to discontinue the production of field-grown rose bushes.

We have a limited number of Potted Growing Rose Bushes for Local Call For Trade, not for shipment, which can be planted in Northern States anytime from April 15th to the late Fall with complete success.

In Bare Root dormant rose bushes, we can supply our own varieties in Greenhouse-grown bushes, for Spring planting only. These bushes will not appear as strong as the field-grown ones, but after they have commenced to grow the results are very satisfactory and they become hardy.

Please refer to the enclosure for prices and other pertinent information.

Very truly yours,

NICHOLAS GRILLO
